

FMLA Leave Approval Notice

Apex Manufacturing Partners • August 18, 2026

FAMILY AND MEDICAL LEAVE ACT (FMLA) DESIGNATION NOTICE

To: David Lin, Production Supervisor
From: Human Resources Leave Administration
Date: August 18, 2026
Subject: Designation of FMLA Leave

We have received your medical certification form dated August 14, 2026, requesting leave for your own serious health condition.

Approval Status:

Your request for continuous leave is approved and has been designated as Family and Medical Leave Act (FMLA) protected leave.

Leave Dates:

Your approved leave period begins on Monday, August 24, 2026, and is expected to conclude on Friday, October 16, 2026. This period utilizes 8 weeks of your 12-week annual FMLA entitlement. Should you require additional time beyond October 16, an updated medical certification from your healthcare provider must be submitted at least 5 business days prior to the expiration of the current leave.

Compensation During Leave:

FMLA leave is fundamentally unpaid. However, per company policy, you are required to exhaust your accrued sick leave concurrently with your FMLA absence. You currently have 64 hours of accrued sick leave, which will be applied to the first eight days of your absence. The remainder of your leave will be unpaid, unless you have applied for and been approved for Short-Term Disability (STD) benefits through our third-party carrier.

Benefits Maintenance:

During your FMLA leave, your health insurance coverage will be maintained under the same conditions as if you had continued to work. Because a portion of your leave will be unpaid, you must make arrangements to pay your portion of the premium premiums. Please remit a check for \$145.50 on the 1st and 15th of each month to the Apex Manufacturing Partners Benefits Department.

Return to Work:

Prior to your reinstatement on October 19, 2026, you must present a "Fitness-for-Duty" certification from your attending physician clearing you to resume the essential functions of your role without restrictions.
