

Medical Clearance and Return to Work

Summit Retail Partners • August 2026

RETURN TO WORK AUTHORIZATION

To: Angela Torres, Store Manager (Location #440)

From: Leave Administration / HR Business Partner

Date: August 18, 2026

Subject: Medical Clearance and ADA Accommodations

This document serves as formal notification that Angela Torres has been medically cleared by her attending orthopedic physician to return to work following a 12-week absence under the Family and Medical Leave Act (FMLA) and concurrent Short-Term Disability (STD).

Return Date: Monday, August 24, 2026

Position: Store Manager

Status: Cleared with Work Restrictions

Work Restrictions and ADA Accommodations:

In accordance with the submitted "Fitness-for-Duty" medical certification, Angela is cleared to resume the essential functions of the Store Manager role, subject to the following temporary restrictions, which will remain in effect until a follow-up medical evaluation scheduled for October 15, 2026:

1. **Lifting Limitation:** The employee is strictly restricted from lifting, pushing, or pulling any inventory, boxes, or equipment exceeding 15 pounds.
2. **Mobility Constraint:** The employee must be permitted to sit for at least 15 minutes after every 45 minutes of continuous standing or walking on the sales floor.
3. **Schedule Modification:** For the first four weeks of her return, the employee is restricted to working a maximum of 32 hours per week, with shifts not exceeding 8 hours in duration.

Action Required by District Management:

The District Manager must ensure that an Assistant Store Manager (ASM) or Shift Lead is present during all of Angela's scheduled shifts to handle tasks involving heavy lifting or receiving incoming freight. A dedicated ergonomic stool has been ordered and will be delivered to the back-office management station prior to her return.

These temporary restrictions have been reviewed by the HR Legal Compliance team and fall within the scope of reasonable accommodations under the Americans with Disabilities Act (ADA). Failure to adhere strictly to these medical restrictions is a violation of corporate policy and may expose the company to liability.
