

Annual Total Rewards & Equity Grant Statement

Aethelion Networks Inc. • August 2026

TOTAL REWARDS AND EQUITY COMPENSATION STATEMENT

Date: August 18, 2026

Employee Name: Marcus Thorne

Employee ID: EMP-44910

Department: Enterprise Software Engineering

Title: Senior Solutions Architect

Dear Marcus,

In recognition of your exceptional performance over the past fiscal year and your contributions to the successful launch of the AetherCloud routing platform, Aethelion Networks is pleased to present your Annual Total Rewards summary for the upcoming 2026-2027 compensation cycle.

1. Base Salary Adjustment:

Effective September 1, 2026, your annualized base salary will be increased from \$145,000 to \$158,500. This 9.3% increase encompasses both a standard cost-of-living adjustment and a merit-based performance bump. Your semi-monthly gross pay will reflect this change on the September 15th payroll run.

2. Short-Term Incentive Plan (STIP) Payout:

Based on the company achieving 112% of its target EBITDA goals, the STIP funding pool was over-allocated. Your personal performance multiplier was evaluated at 1.25x. Consequently, your gross cash bonus for FY2026 is \$29,000. This will be paid out as a separate direct deposit on August 31, 2026, subject to supplemental withholding tax rates.

3. Long-Term Equity Grant (RSUs):

The Compensation Committee of the Board of Directors has approved a new grant of Restricted Stock Units (RSUs) to align your long-term interests with our shareholders.

- Grant Date: August 15, 2026

- Total Units Granted: 1,500 RSUs

- Vesting Schedule: Four-year graded vesting. 25% of the units (375 RSUs) will vest on August 15, 2027, with the remaining units vesting in equal quarterly installments over the subsequent 36 months, contingent upon your continued employment.

Please log in to the Shareworks portal by September 10, 2026, to electronically accept your new equity grant agreement.
