

Authorization of Share Repurchase Program

Meridian Data Solutions Inc. • August 2026

BOARD OF DIRECTORS RESOLUTION: SHARE REPURCHASE PROGRAM

Date: August 18, 2026

Prepared By: Office of the Corporate Secretary and Corporate Treasury

Resolution Summary:

The Board of Directors (the "Board") of Meridian Data Solutions Inc. (the "Company") has formally authorized a new common stock repurchase program, allowing the Company to buy back up to \$250.0 million of its outstanding shares over the next 24 months, effective September 1, 2026.

Rationale:

Management and the Board believe that the Company's current stock price does not fully reflect its intrinsic value or long-term growth prospects, particularly regarding the expansion of our cloud infrastructure division. Repurchasing shares represents an efficient return of capital to shareholders and will be accretive to Earnings Per Share (EPS).

Execution Mechanics:

Repurchases may be made from time to time through open market purchases, privately negotiated transactions, or structured mechanisms such as an Accelerated Share Repurchase (ASR) agreement, depending on market conditions.

Regulatory Compliance:

All open market transactions will be executed in accordance with the safe harbor provisions of Rule 10b-18 under the Securities Exchange Act of 1934. The Treasury department is directed to establish a Rule 10b5-1 trading plan to facilitate repurchases during established blackout periods.

Funding:

The repurchase program will be funded entirely through the Company's existing cash equivalents and projected free cash flow generation. The authorization does not obligate the Company to acquire any specific number of shares and may be suspended or discontinued at any time without prior notice.
