

# Notice of Involuntary Separation

Radiant Energy Corp. • August 18, 2026

---

## CONFIDENTIAL SEPARATION NOTICE

Date: August 18, 2026

To: Mark Vance, Logistics Coordinator

From: Human Resources

Dear Mark,

This letter is to formally notify you that your employment with Radiant Energy Corp. is being terminated, effective immediately.

### Reason for Separation:

As discussed during the all-hands briefing last week, Radiant Energy Corp. is undergoing a comprehensive corporate restructuring to align our operational overhead with revised Q3 revenue projections. Unfortunately, this involves the elimination of several roles within the supply chain division, including your position as Logistics Coordinator. Please be assured that this decision is strictly a result of position elimination and does not reflect upon your individual performance or conduct.

### Final Compensation:

Your final paycheck, encompassing all wages earned through today, plus payment for 38 hours of accrued but unused Paid Time Off (PTO), will be processed and deposited into your account of record by the end of the business day.

### Severance and Benefits:

In consideration of your two years of service, the Company is offering a severance package equivalent to four (4) weeks of your standard base salary. To receive this severance pay, you must sign and return the attached General Release and Waiver of Claims Agreement within 21 days.

Your current health, dental, and vision insurance coverage will remain active through the last day of the current month (August 31, 2026). Subsequently, you will receive a separate packet from our benefits administrator detailing your rights to continue coverage under COBRA.

### Return of Company Property:

You are required to return all company-owned property in your possession prior to exiting the building today. This includes your laptop, building access badge, corporate credit card, and mobile device.

We thank you for your contributions to Radiant Energy Corp. and wish you the best in your future endeavors.
