

FY2026 Compensation and Merit Review

Vanguard BioHealth • August 2026

FY2026 ANNUAL COMPENSATION STATEMENT

Employee: Dr. Elena Rostova

Title: Principal Clinical Researcher

Department: Oncology R&D

Manager: Dr. Julian Sterling

Effective Date: September 1, 2026

Dear Elena,

Thank you for your outstanding dedication to Vanguard BioHealth over the past fiscal year. Your leadership in steering the Phase II clinical trials for our primary targeted biologic has been instrumental in accelerating our regulatory timeline. Based on the recent Annual Performance Appraisal, your overall performance rating has been calibrated as "Exceeds Expectations."

As part of our annual compensation review cycle, the executive compensation committee has authorized the following adjustments to your Total Rewards package:

1. Base Salary Merit Increase:

Your annualized base salary will be increased by 5.5%, moving from \$185,000 to \$195,175. This increase is above the company-wide average of 3.2% and directly reflects your critical contributions to our intellectual property portfolio. This new rate will be reflected in your semi-monthly paychecks beginning September 15, 2026.

2. Annual Performance Bonus:

The target bonus payout for your job grade is 15% of your base salary. Based on the company achieving its corporate EBITDA targets, combined with your individual performance multiplier of 1.2x, you have earned a gross performance bonus of \$33,300 for FY2026. This amount will be paid out as a lump sum on August 31, 2026, subject to applicable local, state, and federal tax withholdings.

3. Stock Option Grant:

To ensure your continued alignment with our long-term shareholder value creation, you have been awarded 1,200 non-qualified stock options (NSOs) at a strike price of \$42.50. These options will vest over a 48-month schedule, with 25% vesting on the one-year anniversary of the grant date, and the remainder vesting in equal monthly installments.

Please review the detailed Equity Award Agreement available in the HR portal. We look forward to your continued success and leadership at Vanguard BioHealth.
