

DATA PROCESSING AGREEMENT (GDPR/CCPA)

Starlight Media & DataFlow Analytics • August 2026

DATA PROCESSING AGREEMENT

This Data Processing Agreement ("DPA") is an addendum to the Master Services Agreement between Starlight Media Group ("Controller") and DataFlow Analytics LLC ("Processor").

1. SCOPE AND APPLICABILITY

This DPA applies exclusively to the processing of Personal Data (as defined by the GDPR and CCPA) by the Processor on behalf of the Controller in the course of providing the analytics and targeted marketing services outlined in the underlying agreement.

2. PROCESSING INSTRUCTIONS

Processor shall process Personal Data only on documented instructions from the Controller, unless required to do so by applicable EU, Member State, or US Federal law. If Processor believes an instruction infringes applicable data protection laws, it shall immediately inform the Controller.

3. SECURITY MEASURES

Processor shall implement appropriate technical and organizational measures to ensure a level of security appropriate to the risk, including but not limited to the encryption of Personal Data in transit and at rest, the implementation of robust identity and access management controls, and regular penetration testing of its infrastructure.

4. SUB-PROCESSORS

Controller grants Processor general authorization to engage third-party sub-processors. Processor shall maintain an up-to-date list of its sub-processors and provide Controller with at least 30 days' advance notice of any intended additions or replacements, giving Controller the opportunity to object.

5. PERSONAL DATA BREACH NOTIFICATION

In the event of a confirmed Personal Data Breach affecting Controller's data, Processor shall notify Controller without undue delay, and in no event later than 72 hours after becoming aware of the breach. Processor shall provide reasonable assistance in investigating and mitigating the breach.

6. DELETION OR RETURN OF DATA

Upon termination of the underlying services, Processor shall, at the choice of the Controller, delete or return all Personal Data to the Controller, and delete existing copies unless applicable law requires continued storage.
