FOR SETTLEMENT PURPOSES ONLY – FED. R. EVID. 408

Date: August 30, 2026

To: Legal Department, Vanguard Mutual Casualty

From: Julian T. Sterling, Esq., Counsel for David Lin

Subject: Pre-Litigation Settlement Demand - Claim No. AC-99201-B

Dear Counsel:

As you are aware, this firm represents Mr. David Lin concerning the severe bodily injuries he sustained on July 28, 2026, when your insured, driving a commercial delivery truck, ran a red light at the intersection of West Elm Street and Market Drive, striking our client's vehicle on the driver's side.

Liability in this matter is undisputed. The attached police report clearly cites your insured for failure to obey a traffic control device. Furthermore, dashcam footage from a third-party witness confirms the negligent operation of the vehicle.

As a direct result of this collision, Mr. Lin suffered a fractured left clavicle, a concussive traumatic brain injury (TBI), and severe cervical strain. Attached as Exhibit A are Mr. Lin's complete medical records to date. His past medical specials currently stand at \$42,500.00. Furthermore, Mr. Lin is an independent software consultant whose injuries prevented him from working for five weeks. Attached as Exhibit B is documentation of his lost wages, totaling \$18,400.00.

Mr. Lin continues to require intensive physical therapy and is experiencing ongoing cognitive fatigue. Given the clear liability, the significant special damages, and the substantial pain and suffering endured by our client, we estimate the trial value of this claim to be well in excess of your insured's policy limits.

However, in the interest of resolving this matter amicably and avoiding protracted litigation, Mr. Lin authorizes me to make a full and final settlement demand of One Hundred Fifty Thousand Dollars (\$150,000.00).

This demand will remain open until 5:00 PM PST on September 15, 2026. If we do not receive a favorable response by that time, this offer will be withdrawn, and we will proceed to file a formal complaint in civil court. We look forward to your prompt response.
